The Maritime Perspectives Series continues with the Future of Shipping: Decarbonisation webinar, jointly organised by the International Maritime Organization (IMO) and the Maritime and Port Authority of Singapore (MPA).

Despite these challenging times, decarbonisation remains a top priority for the maritime sector. What have we achieved so far, and what more needs to be done? How do we tap opportunities and create new opportunities for collaboration? How can regulations provide the enabling environment necessary to progress decarbonisation R&D and technologies? Experts and industry leaders will share their ideas and views on this multifaceted issue that will impact the maritime sector and beyond.

**PROGRAMME**

5.30 PM: Welcome

5.35 PM: Opening Remarks by Mr. Ng Eng Hen, Minister for Transport, Singapore

5.45 PM: First Presentation by Mr. Joo Chiat Poh, Chief, Department of Partnerships and Programs, IMO.

The MPA will deliver a presentation on its decarbonisation-related initiatives, and introduce the “Clean Shipping Index”, a tool that measures maritime shipping’s overall environmental performance.

5.55 PM: First Panel Discussion (B2B): “What can we achieve in enabling the shipping industry to significantly reduce its emissions on a global scale?”

6.05 PM: Second Presentation by Mr. Ng Eng Hen, Minister for Transport, Singapore.

6.15 PM: Second Panel Discussion (B2B): “What are the top priorities of the shipping industry in terms of decarbonisation?”

6.30 PM: Conclusion

**FEATURED SPEAKERS**
