MINOR: BACHELOR CUSTOMS MANAGEMENT IN INTERNATIONAL BUSINESS

EXECUTIVE MASTER IN CUSTOMS AND SUPPLY CHAIN COMPLIANCE

Combining safety, security and sustainability with compliance and efficiency in international trade.

UNIQUE CONTENT FOR LEADERS IN CUSTOMS AND INTERNATIONAL TRADE

Do you want to learn how to put knowledge from customs regulations, supply chain management, and logistics with information compliance into practice? If so, join the RSM Executive Master in Customs and Supply Chain Compliance programme. Customs leaders want to combine these tools to better understand and collaborate with businesses and inspection services.

ACADEMIC EXCELLENCE

You will benefit from the programme's unique content, which is based on the strengths of faculty from three universities: Erasmus University Rotterdam, Delft University of Technology and Eindhoven University of Technology. Each benefits from ongoing research, which you will use to examine the most recent insights.

INNOVATIVE AND PRACTICAL

The world of customs agencies is changing. Innovative developments from customs authorities to collaborate with other inspections and business. There is a general trend towards regularity compliance rather than command and control, facilitated by information systems. You will explore and discuss cases with different stakeholders and guest speakers who will provide you with fresh perspectives and new knowledge.
