Maritime security in ports
Challenges

Threats

• Ongoing traditional threats
• Fallout from piracy and armed robbery
• Cyber
• Terrorism more widespread
• Destructive and unsustainable levels of illegal, unreported and unregulated fishing
• Trafficking in weapons, drugs and people is increasing and threatens the cohesion of societies.
• The uncontrolled export of illegal wildlife and illegal wildlife products threatens ecosystems and sustainable tourism ashore.
Conclusion

- full support of the port sector
- port sector supported by government
- streamline procedures and remove excessive barriers to trade
- embrace new technologies
- root out the cancer of corruption
- safety, security and reputation are desirable and marketable
- Ports are a major driver towards stability and sustainable development
