1. With reference to document MEPC 56/23/Add.1, containing annex 13 to the report of the Marine Environment Protection Committee on its fifty-sixth session (2007 Amendments to the International Code for the Construction and Equipment of Ships Carrying Dangerous Chemicals in Bulk (IBC Code)), the attached corrections are made in the tables for chapter 17 (Summary of minimum requirements) and chapter 19 (Index of products carried in bulk) of the above-mentioned amendments, as set out in the annex.

2. These corrections are necessary because some amendments to the listings were initially not carried forward to the reports module of the new database, which was being commissioned at that time. The corrections need to be made only in annex 13 to the report of MEPC 56.
