Content of the consolidated text

4 This publication contains a consolidated text of the 1974 SOLAS Convention, the 1988 SOLAS Protocol, and all subsequent amendments thereto up to and including the May 1999 amendments except for the May 1998 amendments (see paragraph 2.20), which have not yet entered into force. The resulting text has been compiled by the IMO Secretariat and is intended to provide an easy reference to SOLAS requirements applicable as on 1 January 2001.

5 The publication has been arranged in two parts:

1 part 1, which contains the 1974 SOLAS Convention and 1988 SOLAS Protocol articles, requirements and certificates; and

2 part 2, which contains resolution A.883(21) on the Global and uniform implementation of the harmonized system of survey and certification (HSSC), a list of certificates and documents* to be carried on board ships and a list of resolutions adopted by the aforementioned SOLAS Conferences.

6 The operational requirements contained in this consolidated text are, in general, applicable to all ships, whilst the requirements for ship construction and equipment apply to ships constructed on or after the dates specified in the various regulations. To identify construction and equipment requirements applicable to ships constructed before 2001, previous texts of the 1974 SOLAS Convention, the 1988 SOLAS Protocol and the amendments to the Convention should be consulted. For instance, special requirements for existing passenger ships are contained only in part F of chapter II-2 of the original 1974 SOLAS Convention but neither in chapter II-2 of the 1981 amendments nor in this consolidated text.

7 Those provisions of chapter I and of the appendix to the annex to the 1974 SOLAS Convention which have been modified by the 1988 SOLAS Protocol are indicated by the symbol $\text{PS}\text{H}$. No similar symbol is shown for provisions of the 1974 SOLAS Convention which were modified by the

1978 SOLAS Protocol because, whilst, in respect of chapter I of the Convention, the provisions thereof have been replaced and abrogated by the 1988 SOLAS Protocol, as between Parties to the Protocol, for provisions in other chapters of the Convention, they have been superseded by SOLAS amendments subsequently adopted.

8 In general, this publication reproduces the text of the 1974 SOLAS Convention and the 1988 SOLAS Protocol and includes the modifications and amendments thereto given in their authentic texts. In addition, it includes some minor editorial changes, which, while not altering the substance, aim at achieving a degree of consistency between the texts of the 1974 SOLAS Convention and the 1988 SOLAS Protocol and the various SOLAS amendments. In particular:

1 while the decimal numbering system is used for paragraphs and subparagraphs of regulations in chapters II-1, II-2, III, IV, VI and VII, which were completely rewritten in the 1981, 1983, 1988 and 1991 amendments, the original numbering system is retained in chapters I, V and VIII;

2 the references to regulations, paragraphs and chapters in the texts adopted in the 1981 and subsequent amendments use an abbreviated form (e.g. “regulation II-2/55.5”), whereas the original reference system is retained in unamended regulations (e.g. “regulation 5 of this chapter”, “paragraph (a) of this regulation”, etc.);

3 the term *tons gross tonnage* has been replaced by the term *gross tonnage* in view of the Assembly’s decision (resolution A.493 (XII)) that the term *tons gross tonnage* used in IMO instruments should be considered as having the same meaning as *gross tonnage* as determined under the 1969 Tonnage Convention; and

4 metric values of the SI system have been used in accordance with resolution A.351(IX).

Status of footnotes

9 The footnotes given in this consolidated text (which do not, as noted by the MSC, form part of the Convention but are inserted for ease of reference) refer to codes, guidelines and recommendations relating to a particular text and were updated by the Secretariat at the time of publication. In addition, certain explanatory footnotes have been inserted based on relevant texts of codes, guidelines, recommendations and other decisions of the MSC. In all cases, the reader must make use of the latest versions of the referenced texts, bearing in mind that such texts may have been revised or superseded by updated material since publication of this consolidated edition of the 1974 SOLAS Convention, as amended.
