Foreword

Model course: Ratings forming part of a watch in a named engine-room or designated to perform duties in a periodically unmanned engine-room, 2017 Edition

This syllabus covers the requirements of the chapter III of the STCW Convention and section A-III/4 of the STCW Code. This functional element provides the detailed knowledge to support the training outcomes related to Marine Engineering at the Support Level. It provides the background knowledge and practical work to support: contribute to a safe engineering watch; communicate with the officer of the watch; and use internal communication systems.

Product code: T709E
Price: GBP40.00
