Foreword

Model course: Basic training for masters, officers, ratings and other personnel on ships subject to the IGF Code, 2019 Edition

This course gives practical guidance, training and basic qualifications for seafarers responsible for the care and use of, and in-emergency response to, the fuel on board ships subject to the International Code of Safety for Ships using Gases or other Low-flashpoint Fuels (IGF Code).

It contains exercises structured around the safe operation of ships, their installations of systems for propulsion machinery and auxiliary power generation machinery using gas or other low-flashpoint fuel.
