SAR.7/Circ.9
7 April 2009

**LIST OF IMO DOCUMENTS AND PUBLICATIONS WHICH SHOULD BE HELD BY A
MARITIME RESCUE COORDINATION CENTRE (MRCC)***

1 The Sub-Committee on Radiocommunications and Search and Rescue (COMSAR), at its thirteenth session (19 to 23 January 2009), instructed the Secretariat to include Cospas-Sarsat's document C/S G.007 "Handbook on Distress Alert Messages for RCCs, SPOCs and IMO Ship Security Competent Authorities" in the list of documents and publications which should be held by a Maritime Rescue Coordination Centre (MRCC). The Secretariat was also instructed to prepare further updates of this circular, as deemed necessary, and to circulate the updated document as SAR.7/Circ.9.

2 Member Governments are invited to bring the updated list, given in the annex, to the attention of MRCC personnel.

3 This circular revokes SAR.7/Circ.8.

* This circular is also available in English, French and Spanish on the IMO website.

ANNEX

**LIST OF IMO DOCUMENTS AND PUBLICATIONS WHICH SHOULD BE HELD
BY A MARITIME RESCUE COORDINATION CENTRE**

This circular, which is published following the instructions by the Sub-Committee on Radiocommunications and Search and Rescue, provides maritime rescue coordination centres (MRCC), solely for their operational purposes, with a minimum list of IMO documents which are essential for such centres to have in their possession.

The list has been kept to a minimum. It only covers search and rescue and not other tasks which MRCCs are often required to perform. Thus documents concerning the world-wide navigational warning system are only mentioned to the extent that access to the system is essential in the context of some SAR operations.

National Authorities responsible for search and rescue may, of course, add to this list to improve centres' documentation. Governments may replace the documents and publications listed below by national equivalent documents and publications. It is also up to them to decide, depending on the degree of autonomy of maritime rescue sub-centres, whether some documents on the list need not be provided to them.

- * Indicates that the document may not be useful for MRCCs whose search and rescue region (SRR) is entirely in a GMDSS sea area A1 and/or A2.
- ** Indicates that the document is only essential if the MRCC covers an area where the NAVTEX service exists or may be introduced.
