

Ref. T3/2.02

FAL.2/Circ.68
31 June 2001

REPORTS ON STOWAWAY INCIDENTS

**Issued quarterly
(April to June 2001)**

1 Reference is made to FAL.2/Circ.50/Rev.1 of 9 November 1999 adopted by the Facilitation Committee at its twenty-seventh session (6 to 10 September 1999).

2 In pursuance of the provisions of resolution A.871(20) - "Guidelines on the Allocation of Responsibilities to Seek the Successful Resolution of Stowaways Cases", by means of which Governments were invited to develop, in co-operation with the industry, comprehensive strategies to prevent intending stowaways from gaining access to ships, the Facilitation Committee invited Member Governments and international organizations to provide the Organization, on a monthly basis, with:

- .1 statistical data on stowaway incidents which occurred since the date of adoption of FAL.2/Circ.50/Rev.1, using the reporting format presented in the annex; and
- .2 information on their experience gained with the Guidelines and the measures taken for, and obstacles encountered with, their implementation.

3 Member Governments and international organizations were further invited to encourage shipping companies, shipowners, ship operators, ship masters and industry organizations concerned to report, in the aforementioned format, any relevant information, for the purpose of assisting the Facilitation Committee in its further work on the Guidelines. The reporting party may submit any relevant information collected to either Member Governments or international organizations for onward transmission to the Organization.

4 Attached is information received since March 2001. The total number of stowaway incidents so far reported to the Organization is 1,535, an increase of 94 since 31 March 2001.

ANNEX
Stowaways incidents reported by Member States
or international organizations in consultative status

| N° | Ship's name Type of ship Flag Gross tonnage IMO n° | Date* and Place* of embarkation | | Dates* and Places* of attempted disembarkations | | Number and nationality * of stowaways | Assessment of the effectiveness of the Guidelines contained in resolution A.871(20) and any other relevant information ** | FAL.2/Circ.68 ANNEX Page 1 |

| 43 | KINTAMPO Ro-ro cargo ship United Kingdom 35748 7704605 | 01/01/2001 Lagos, Nigeria | 01/02/2001 Hamburg, Germany Amsterdam, Netherlands | 1 Nigerian | Stowaway was found in a container on deck. Disembarkation was refused by the Authorities. 34 days on board | Belgium |
| 44 | NORDSTAR Container ship Cyprus 16803 9149873 | 06/01/2001 Casablanca, Morocco 15/01/2001 Gioia Tauro, Italy | | 7 Moroccan | The stowaways were found in a sealed container. The seal on the container was fully intact when the container was discharged, therefore the stowaways must have been sealed in the container by a representative of the charterer in spite of the stowaway checks going on in Casablanca at the time. Strong complaints were raised with the charterer by the company concerned to the flag State, who wrote a report which was transmitted to ICS. A representative from the UNHCR visited the vessel, interviewed the stowaways and declared that they could not be taken in as refugees. The local Authorities then issued a piece of paper declaring the Moroccans to be illegal immigrants and therefore not allowed entry in Italy. The local Authorities in ports are generally unhelpful and their main interest is to get the ship and its stowaways off their patch as soon as possible. Assistance was finally requested from the flag State of the vessel, Cyprus. The charterers had also requested assistance from their Government. It is believed that it was diplomatic pressure which persuaded the Italian Government to intervene and order the local Authorities in Gioia Tauro to take the stowaways into custody | ICS |
